

Kansas Surgical Consultants invites you to consider a premier Breast Surgery opportunity. The group is made up of five General Surgeons who serve the Wichita and surrounding areas. Our established Breast Center is a turn-key operation with a well-trained staff in place. The office is centrally located in a recently built medical complex for collaborative health care with fellowship trained surgical pathologists, breast radiologists and an out-patient surgery center in neighboring suites.

To meet the needs of this busy market, we are looking for an individual who is fellowship trained or is a Fellow of the ACS and board certified/eligible. The position is expected to be 100% dedicated to breast surgery and will enjoy a call rotation of only 1:6.

Wichita is a dynamic community that provides a wonderful environment in which to practice and raise a family. Our city is set amidst the beautiful Plains of Kansas and the people are extremely friendly, welcoming and admiring of their physicians. This is a great area for families and the practice opportunity is one of the most outstanding you will find. If you would like to see what our practice has to offer, please email your CV to GMartinez@kansassurgical.com. You may also call Glenda Martinez, Practice Administrator, at 316.685.6222. We look forward to hearing from you soon.

Sincerely,

William Waswick, MD
Managing Partner
